Appendix 2 Declaration of tree species not permitted to be used in Nordic Ecolabelled liquid og gaseous fuels

Name of the Nordic Ecolabel applicant:
Product grop/-type:
Version and date of the list of prohibited tree species used:

It is hereby declared that tree species listed in the list of prohibited tree species (Nordic Ecolabelling - Prohibited Wood) is not used in the Swan-labelled product. The requirement only applies to virgin forest species and not species defined as recycled material,*

The list of prohibited tree species is located on the website: www.nordic-ecolabel.org/wood/

Nordic Ecolabelling may request further information if in doubt about specific tree species.

* *Recycled material defined according to ISO 14021 in the following two categories:*

"Pre-consumer" is defined as material that is reclaimed from the waste stream during a manufacturing process. Re-use of materials, that are processed or crushed, or waste, that has been produced in a process and can be reclaimed in the same manufacturing process that generated it, is not considered to be pre-consumer reclaimed material.

"Post-consumer" is defined as material generated by households or commercial, industrial or institutional facilities in their role as end-users of a product that can no longer be used for its intended purpose. This includes materials from the distribution chain.

Nordic Ecolabelling includes by-products from primary wood processing industries (sawdust, wood chips, shavings, bark, etc.) or residues from forestry operations (branches, roots, etc.) in its definition of recycled material.
