Appendix 3b Calculation basis of certified proportion wood, cork or bamboo raw material

To verify that, at least 50% of the wood, cork and bamboo content, on an annual basis are derived from areas where forestry operations are certified pursuant to a forestry standard and certification system that meet the criteria stated in Appendix 4 the:

- Table and calculation below, shall be filled in by the manufacturer of floor coverings.
- Documentation shall be submitted, to verify that certified wood/cork/bamboo is delivered to the manufacturer of the Nordic Swan Ecolabelled product. For example a copy of a contract and/or specified invoices.

Financial figures are not relevant and are not necessary to be cleared.

Supplier	**Product/wood raw material**	**Amount***	**Geographical origin**	**Certification code (e.g. FSC/PEFC)**	**Proportion (%)certified**

**Either volume or weight can be used as long as the same unit is used all through the table.*

The proportion of timber/bamboo/cork derived from certified forests is calculated as follows:

$$\frac{\text{Amount wood/bamboo/cork from certified forestry}}{\text{Total amount wood/bamboo/cork in the floor}}$$
