Appendix 13 Use of Ecolabelled construction products

The Table shall be used to calculate points for the use of ecolabelled construction products.

For each row in the table, i.e for every product category, the following point is given:

- 1 point is given if at least 10% of the product requirement is covered by ecolabelled products.
- 3 points are given if at least 50% of the product requirement is covered by ecolabelled products.

A maximum of 10 points can be achieved.

Product category	**Trade name**	**Licence No**	**Are of use**	**Share of need(%)**	**Points**
Wood-based board /panels for indoor use (m^2 or kg)					
Façade panels (m^2 or kg)					
Acoustic panels (m^2 or kg)					
Windows and Exterior doors (pcs)
