Appendix 3, Declaration 1, Material composition - textiles

A declaration from the producer of the finished textile is to be supplied, as part of the documentation required under R2, with applications for a licence regarding Nordic Ecolabelling of supplies for microfibre based cleaning.

(This requirement applies to all textile materials that are used in supplies for microfibre based cleaning.)

Product name	
Product code/Article number	
Colour	
Size (cm)	
Weight (g/m^2)	
Total percentage of microfibre in the product (textile material with cleaning function) (%)	
Size of microfibres (dtex)	
Composition of microfibres	

Are the microfibres split? Yes ☐ No ☐

If yes, please indicate

Type of splitting: _____

Degree of splitting (%): _____

Supplier	Part of product	Material (name)	Type of material (type of fibre used)	Weight	Proportion (%)

The term "recycled material" refers to waste materials from the textile and clothing industry or from post-consumer waste (textiles and similar), as well as to used products that have been collected for recycling.

Location and date	Company
Signature	Telephone/fax
Name in block capitals	E-mail
