Appendix 3, Declaration 13, Plastics

A declaration from the supplier of the plastic material, or from the applicant, is to be supplied, as part of the documentation required under R30 - R34, with applications for a licence regarding Nordic Ecolabelling of supplies for microfibre based cleaning.

Product name
Type of plastic

Plastic supplier ☐ Applicant ☐

Does the plastic material contain filler or reinforcing material? Yes ☐ No ☐

If Yes, specify the types and amounts: _____

_____

Do the cleaning utensil or fixtures that are sold along with the microfibre cloth or mop contain PVC and other halogenated plastics? Yes ☐ No ☐

Are plastic parts heavier than 50 g marked for recycling in accordance with ISO 11 469? Yes ☐ No ☐

If no, specify the equivalent standard that has been used:

_____

Can plastics be separated from the rest of the material without the use of special tools? Yes ☐ No ☐

Description of methods for separating plastic materials supplied. Appendix no. _____

Have any of the following substances been actively added to the plastic material?

- Substances based on lead, cadmium, mercury and their compounds or organotin compounds. Yes ☐ No ☐
- Halogenated organic compounds. Yes ☐ No ☐
- Phthalates Yes ☐ No ☐

Are plastic parts surface treated? Yes ☐ No ☐

More than 10 percent by weight of plastic

The total weight of various plastic materials in the product that each constitute more than 1% by weight shall be calculated. If the total weight of plastic constitutes more than 10% by weight, the following requirements must be fulfilled.

Has recycled plastic* been used? Yes ☐ No ☐

What proportion of the plastic material comprises recycled material? Yes ☐ No ☐

Recycled plastic refers to plastic derived from used products or used packaging.
