Appendix 17 Yarn, fabric and textile

To be completed by the manufacturer of yarn or fabric.

Name of yarn, fabric or textile and application:

_____

Manufacturer of yarn, fabric or textile:

_____

O27. Are substances added[1] and/or integrated which can have a biocide and/or antibacterial effect? Silver compounds, nano silver and nano gold are also considered antibacterial substances.

☐ Yes ☐ No

[1] *Added substances comprise all chemical products and ingredients of these, including additives (e.g. pigments) in ingredients, but not contaminants from raw material, incl. raw material production. Contaminants are defined as residues from raw material, incl. raw material production present in the finished product in concentrations of less than 100 ppm (0.01 weight %, 100 mg/kg), but not substances that are added to a raw material or product for a purpose, irrespective of quantity.*

O28. Are chlorinated compounds used as bleaching agents for yarn, fabric or finished goods?

☐ Yes ☐ No

O30. Are yarn and textiles treated with cerium compounds to increase their weight?

☐ Yes ☐ No

O67. Are chlorophenols (and salts and esters of chlorophenol), PCB and organotin compounds used in connection with transportation or storage of products or semi finished goods (yarn, fabric or finished products)?.

☐ Yes ☐ No
